

## Advanced Space Camp

Advanced Space Camp explores college and career preparation through an immersive experience in science, engineering, technology and math.

Space Camp combines critical thinking, teamwork and leadership training in a five-day aviation-themed adventure. Field training is focused on discipline and attention to detail in survival situations. A night Field Training Exercise (FTX) requires teams to work together to recover intelligence or rescue a downed pilot. Communication is paramount as everything is taken to the next level.

### SPACE CAMP Has Global Reach

This fiscal year began with high numbers of international students enrolled in camp programs during the first quarter. We served 2253 students and 88 teachers from 56 international locations. India, for the second year, topped the international roster with 655 students attending camp.

More than 600,000 students and adults have attended SPACE CAMPS since the program began in June, 1982.
